## **MINISTRIES**

1. A great name acquisition product... (Ministry use the stimulation of all the media is saying these days as the basis to encourage viewers or their listening audience to know the truth about our nation and how the Christian faith was the catalyst for starting and sustaining this great nation. )
2. Have ministries issue a major call to action to get their viewing and listening audiences actively involved in knowing our history and declaring our rights as Christians and the faith upon which this country was founded
3. Encourage families to take responsibility of teaching their children the true history of our country and how God honored the prayers of the people. (The truth of our nation's Christian heritage is not being taught in the public schools any longer.)
